

## L380S

### FEATURES

#### Features

- Super G3 plain paper laser fax
- 510-page\* fax memory
- 250-sheet paper capacity
- 50-page Automatic Document Feeder
- Ultra High Quality imaging
- 18 ppm, 600 dpi laser printer

#### Super Saving Solution

- This Super-G3 laser fax transmits documents at 3 seconds per page\* so phone costs are reduced and less time is spent standing at the machine. Multiple faxes can be received without blocking the line saving even more time.

#### Worry-free Faxing

- If paper or toner runs out at night or during the weekend, the 510-page\* memory safely stores all incoming documents for printing out later. Lengthy documents can also be scanned rapidly before transmission and are then sent automatically from memory.

#### Time-saving Convenience

- With a 250-sheet paper capacity, the cassette needs refilling far less often. Large documents can be faxed in a single operation, thanks to the 50-page Automatic Document Feeder. Dialling is quick and simple, as 32 one touch and 100 coded dials store all your regular numbers. Direct mail prevention stops unwanted faxes, as you will receive faxes only from coded numbers stored in the machine.

#### Features for ease and efficiency

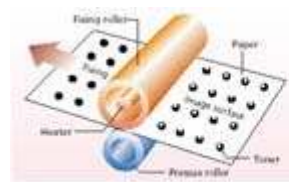

- A 250-sheet paper capacity ensures that the cassette needs refilling far less often. With the 50-page Automatic Document Feeder lengthy

#### Ultra High Quality

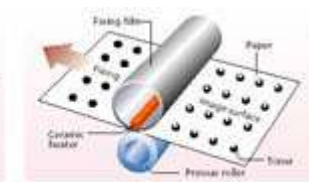

- Benefit from laser quality faxing on plain paper with crisp, clear images. When transmitting detailed documents, such as diagrams or photos combined with text, Canon's unique Ultra High Quality technology ensures a perfect finish every time. The half-tone reproduction with 256 grey scales gives extra depth and clarity.

#### Fast laser printing and copying

- The FAX-L380S can be used as an 18 pages per minute laser printer or copier, via the USB connection. Get superior quality output with a high 600 dpi resolution. Our On-Demand fixing technology virtually eliminates warm-up time for even faster output
