

Color imageRUNNER iR C3180i

FEATURES

The multi-function device Color imageRUNNER 3180i offers a wealth of possibilities, while paperless information distribution is available for easy execution at a touch of a button, incurring minimal cost of sending files over lines. There are choices of robust finishing options for you to choose from, producing sleek and professional-looking documents in-house, without the need for any out-sourcing.

Features

- 'All-in-One' capabilities -copy/print/scan/send/opt fax
- 31 ppm for b/w outputs & 7 ppm for colour outputs
- Standard Canon's UFR II LT printing technology for faster and more efficient printing process
- Scan and achieve beautiful brilliant images
- Seamless connectivity – direct send to emails, i-fax and file servers
- Send/receive laser-speed faxes at approx. 3 sec for faster information transfer & lower transmission/telephone costs
- Unique array of advanced finishing options to choose from
- Optimum uptime and lower running costs with toner and drum design

Advanced Copying features for Uncompromising Business Performance

Power-packed with advanced copying features like Scan-Once-Print-Many, Area Designation, 2-Color Copying, Job Built, Job Block Combination and many more which makes document creation simple. In addition, Express Copy screen enables users to set basic copying modes from a screen. This reduces setup time for complex copy jobs.

UFR II Brilliant Business Colour

Canon's proprietary UFR II Print Technology comes as standard in Color imageRUNNER 3180i, which is responsible for delivering remarkable reproduction of details and image quality, maximizes your printing performance and speed.

Excellent Colour Network Scanning

Scan your documents in both black-and-white and colour directly from imageRUNNER to your pc for integration into workflow or storage. With the scanned coloured documents, you are able to deliver the message much clearer and faster. In addition, these scanned images can be easily edited or modified at your workstation.

Seamless Network Connectivity across the workgroup

Elevate the overall efficiency of your workgroup with this compact performer for seamless network connectivity and share the benefits of professional laser printing. You can also check the status of your iRC3180i right from your desktop via the web browser.

Connect borderless without any restriction

Take advantage of your network infrastructure improve your business communication with a power suite of black-and-white and colour document distribution in TIFF, PDF, and JPEG file formats without restrictions to multiple destinations. Greatly simplify information exchange and communications.

Creating a Variety of File Formats for Different Needs

Standard Universal Send functionality can be further upgraded with Universal Send PDF Advance Feature kit, Universal Send PDF Security Feature kit and Digital User Signature PDF.

You can select TIFF, JPEG, or PDF formats when scanning your documents. In addition, you can further specify the various format options such as Compact, Trace & Smooth, OCR, Encrypt and adding Digital Signatures according to your requirements and serving the purposes.

Look at your Best

Present a professional image every time with the iRC3180i. Produce outputs with outstanding clarity and quality, double sided and stapled reports for distribution with finishing options. Productivity can be enhanced further with an additional tray to separate print and copied output. Alternatively, an inner two-way tray for non-stapled collation can be incorporated for maximum versatility.

Powerful Package – " All-in-One"

Offering all the functionality needed in a single complete package, this reduces space-occupying of multiple devices and respective consumables – a compact design which can fit elegantly in any size. Though compact size but big in features and capacity, you can enhance the capacity of this imageRUNNER up to 4750 sheets, in a variety of sizes up to A3.

Caring for our Environment

Sleep mode is automatically initiated when the device is not in use. Once needed, the device is fully operational again in seconds - a great way to reduce energy consumption without affecting staff productivity. Save paper and cut costs further by using double-sided output.

SPECIFICATIONS

Developing System	Dry Dual Component Developing System
Copy Speed	
B/W	31 ppm (A4)
Color	7 ppm (A4)
First Copy Output Time	
B/W	8 sec (A4)
Color	23.9 sec. (A4)
Warm-Up Time	6 minutes or less
Max. Original size	A3
Max. Copy Size	A3
Min. Copy Size	A5
Max. Copy Reservation	5
Image Server Memory	1 GB RAM (Std) 1.5 GB RAM (Max)
Resolution	
Scan	600 dpi x 600 dpi
Copy	1200 interpolated dpi x 600dpi
Print	2400 interpolated dpi x 600dpi
Paper Capacity	
Standard	Paper Cassettes: 2 x 550-sheets Stack Bypass: 1 x 50-sheets
Optional	Paper Cassettes: 2 x 550-sheets Paper Deck: 2,500 sheets
Acceptable Paper Weight	
Cassette	64 - 128gsm
Bypass	64 - 163gsm
Magnification	25% to 400% (In 1% increments)
Multiple Copies	1 to 999
Network Scanning Utility	Color Network ScanGear
Printing Utility	UFR II LT Printing
OS Supported	Windows®2000/XP/Vista Server2003/ Mac OS(10.2.8 or later)
Send Feature	
Sending Methods	E-mail, I-Fax, File Server (IPX, FTP, SMB, WebDAV), User Inboxes (Includes URL Send)
Address Book Capacity	Max. 1,800 (Includes 200 One-Touch Buttons) Max 5 LDAP Servers
File Format	TIFF, PDF, Optional {PDF (OCR), Encrypted PDF, Digital Signature PDF (Device, User)}
Dimensions (H x W x D)	754mm x 565mm x 755mm
Weight	86.0kg
Power Source	220-240VAC, 50/60Hz
Drum Yield	70,000 pages (A4)
Toner Yield (@5% coverage)	
B/W	23,000 pages (A4)
Color	8,500 pages (A4)
