

## imageRUNNER iR 5075

### FEATURES

At 75-ppm (A4), the imageRUNNER 5075 is perfectly suited for central reproduction departments, print-for-pay establishments, print-on-demand applications, and large corporate offices where fast scanning and copying are required. To maximize versatility, the system is designed to meet professional publishing needs with available saddle-stitched booklet finishing, hole-punching, cover-inserter, z-folding and c-folding finishing options. With a host of Internet-enabled features and latest security options incorporated, imageRUNNER 5075 provides the state of the art to keep ahead in the industry.

#### Features

- Advanced imageCHIP system architecture coupled with high memory capacity of 1GB and a 40GB hard-disk to provide exceptional performance.
- Equip with latest duplexing single-pass document feeder as standard which scans both sides of original at 100 impressions per minute.
- Offers optional Web browsing capabilities
- Offers a wide array of advanced finishing options to choose from like Z-folds, C-folds, saddle-stitched booklets, inserting beautiful full-coloured covers to your documents, and much more.

#### Boost Overall Efficiency for Demanding Environment

Canon's next generation imageCHIP system architecture is specially designed for true job concurrency and exceptional multi-function performance. This intelligent and powerful multi-talented device is an excellent choice for your office, providing powerful capabilities to streamline workflow.

#### Increased Performance and Productivity with less waiting time

imageRUNNER 5075 comes with the Single Pass Duplex Scanner which efficiently scans both sides of your original simultaneously at a laser speed of 100 impressions per minute, enabling you to get your document output faster than before.

#### Exceptional Finishing offers you greater flexibilities and choices

Finishing options on Canon imageRUNNER 5075 gives you a wide array of choices to choose from at your disposal, allowing you to create professional in-house finishing like saddle stitching, beautiful full-coloured cover, Z-fold, C-fold leaflets with ease and at low cost.

With optional paper folding function, you can prepare your financial spreadsheet or large graphic illustration to use

business meetings/presentations. You can also create catalogues, brochures, or menu with z-folding options.

In addition, you can perform optional C-folding to create professional-looking outputs such as restaurant menu or direct mails in-house.

Why not bring colours to your booklet? Create more engaging documents by adding eye-catching full-coloured cover to your black and white documents.

#### Be Connected!

Create business opportunities by enhancing your communication with Universal Send option where documents are sent to multiple destinations at one click.

#### Easy Accessibility to Web without the Use of Computer

Optional web browsing and web access printing features allow you to call up Internet or intranet data directly through the full-size user-interface touch panel, browsing the web and printing out documents without the need of a computer.

#### Manages your cost

Offers extensive management features to restrict access, manage usage and ensure confidentiality for complete control on copy, scan and print totals.

#### Protect your important information

With increasing proliferation of multi-functional devices, vulnerability of information in the multi-functional devices expose to network increases. Hard disk encryption option and hard disk overwrite security options provide added protection for your office.

#### With Environment and Social Sustainability in Our Mind

Canon designs multi-function devices with both environment and usability in mind, employing green technology and using non-hazardous materials technology in all devices. As an ENERGY STAR® Partner, imageRUNNER 5075 meet the ENERGY STAR® Program guidelines of energy efficiency.

## SPECIFICATIONS

Imaging System	Laser Dry Electrostatic Transfer System
Image Server Memory	1 GB RAM
Hard Disk Drive	40 GB
